

Survival Weekend

Join us to experience unforgettable weekend!

Survival Weekend is a camp for all international students studying in the Czech Republic. It is a good possibility to meet other Erasmus people (or your friends who are studying in another city in the CZ). International students from **15 Czech universities** have been invited, so you can look forward to get to know new friends from other Czech universities. During three days you will enjoy many activities such as **paintball, sport games and activities, climbing, boats** and much more. It is the best way how to **spend** your free time with **your friends out of the city**. Of course with a lot of partying. :)
